FURNITURE CARE: MAINTENANCE INSTRUCTIONS

Our craftsmen bring a skill and dedication to the fine art of woodworking that you will continue to appreciate over time.

- Clean surface regularly with a damp cloth or sponge
- Recommended method of cleaning scuff, and other, marks from Painted Surfaces is Pencil/Ink Eraser
- Wipe dry with a soft cloth
- Wipe spills immediately with a soft dry cloth. If water is left standing, white spots can occur but should dissipate over time
- Avoid placing your furniture in highly humid or dry areas, such as directly next to air vents.
- Direct sunlight may slightly darken or lighten wood furniture
- Do not use harsh chemicals, abrasive cleaners, or silicone- or alcohol-based agents on any woven material
- Regular dusting of aluminum parts will help prevent dust build-up
